# High-Performance Thermoplastic Solutions

About the

# COMPANY

Since 1994, Tecoperfil has stood out for offering innovative thermoplastic products, with a focus on PVC. With three decades of experience, the company creates customized solutions for construction, industry, services, and hydroponic agriculture.

The ISO 9001 certification attests to Tecoperfil ommitment to quality. This dedication not only strengthens customer confidence but also opens up new business perspectives.

Conscious of its role in the industry, society, and the environment, TECNOPERFIL strives to implement activities that seek the development of its employees, through participatory management that promotes social responsibility.

More information at

## High-Performance Thermoplastic Solutions

### About the PRODUCTS

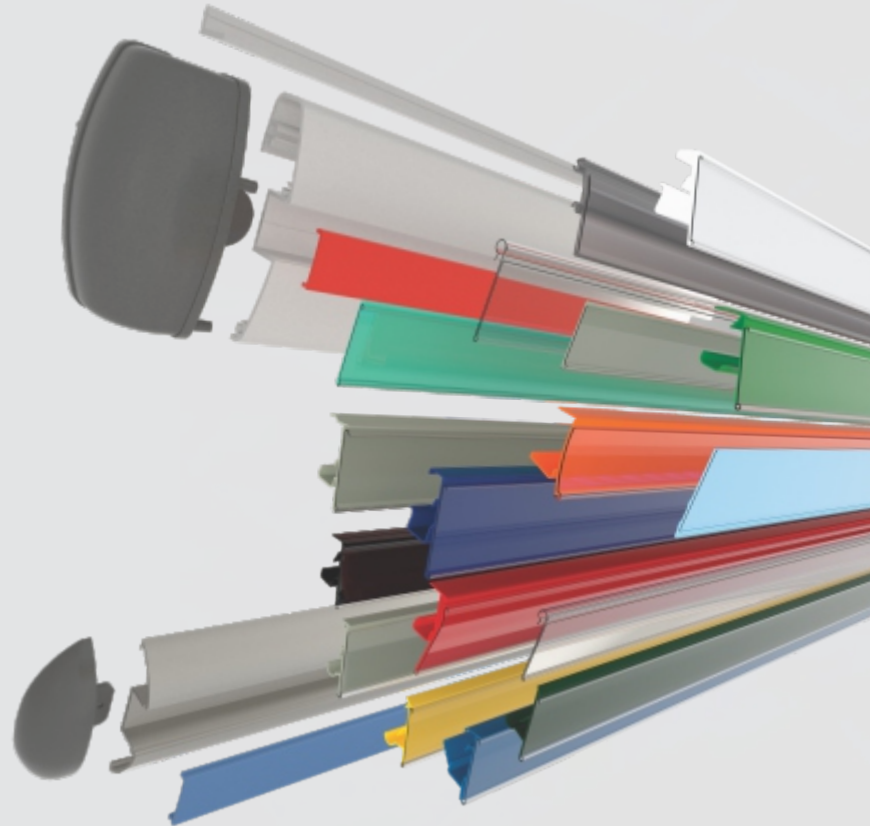

Among Tecnoperfil's main products are profiles for refrigeration, label holders, rails for electronic tags, wall protective profiles for checkouts, Vinylshock handrails and door stops, corner guards, finishing profiles for ceramic coatings, and Hortivinyl hydroponic products.

The company also develops customized technical profiles according to customer needs, elaborating projects for profiles for various purposes.

## ISO 9001

Tecnoperfil has obtained ISO 9001 certification, which means that it follows the criteria and requirements established to guarantee the quality of its products and services.

This demonstrates the company's commitment to meeting customer needs and continuously improving its processes.

# < CANTONEIRAS >

## CORNER GUARDS

Tecnofil's Edge Protectors are sturdy and durable profiles designed to protect corners against impacts. They make environments more hygienic by facilitating cleaning.

They can be used for finishing in various applications, such as in internal linings of freight trucks, clean rooms, cold storage rooms, and in the general industry.

 **PERFIS  
CHECK OUT****SELF-SERVICE PROFILES**

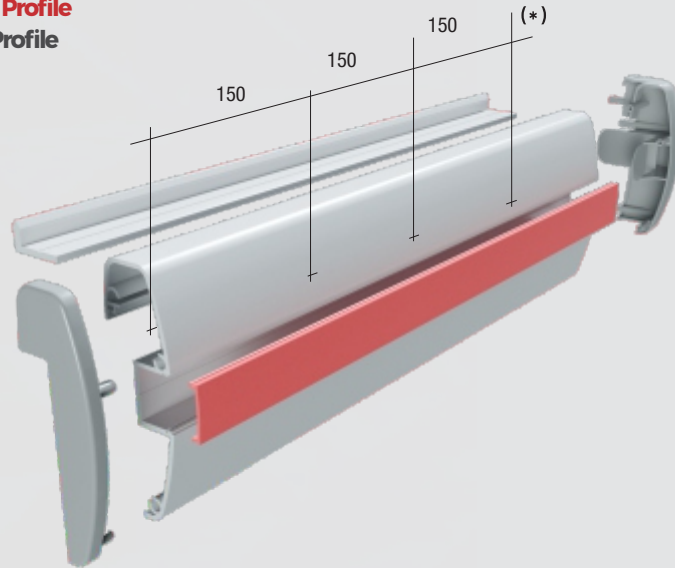

The self-service profile system from Tecnofil is a solution designed to provide a variety of protection options for cash registers, self-service counters, and refrigerated displays.

Made with rigid PVC and polypropylene accessories, these profiles guarantee an excellent finish and harmonious integration into the equipment they are applied to. Their installation is simple, they offer a range of colors to choose from, are easy to maintain, and resist humidity.

Additionally, they do not propagate flames and are easy to clean. The assembly of the profiles provides impact resistance, ensuring the durability of the final product.

## DENTAL MOLDING PLATES IN EVA!

Dental molding plates made of EVA are recommended for **creating splints, molds, or orthodontic braces for the teeth.**

They are useful in **dental whitening procedures, bruxism control, and as mouthguards or splints for dental treatments.**

They are produced in **round and square versions, in three thicknesses:**

**1mm, 2mm e 3mm.**

### MAIN DIMENSIONS

Round	Square
Ø 133mmx 1mm	135mmx 135mmx1mm
Ø 133mmx 2mm	135mmx135mmx2mm
Ø 133mmx 3mm	135mmx 135mmx3mm

## SPECIAL PROJECTS

Turn your ideas into reality with TecnoPerfil. With three decades of excellence in plastic profiles, we offer not only a wide range of products, but also customized solutions that meet your specific needs.

By choosing TecnoPerfil, you bring quality, trust, and commitment to your project, recognized worldwide.

### Why Choose TecnoPerfil?

- ✓ Confidence in the confidentiality of projects;
- ✓ On-time delivery;
- ✓ Standardized production for efficient continuity;
- ✓ Logistics focused on meeting deadlines and preserving products;
- ✓ Compliance with regulatory requirements.

Trust in our experience and expertise and turn your ideas into reality with TecnoPerfil.
